

## PENNY PINE FACT SHEET

Your Garden Club can participate in a meaningful and practical conservation project by contributing \$68.00 to a Penny Pine plantation as part of the costs of replanting replacement and/or trees indigenous (Not Just Pine Trees) to a particular damaged area, whether by fire or by other natural catastrophe. You may designate a specific State you wish to have benefit from this contribution.

Under a Conservation agreement, the Forest Service will do the planting, using your donation together with Federal funds, and will provide to the plantation the same protection from fires, insects, and disease given other forested areas.

For each \$68.00 contribution, you will receive a Penny Pines Certificate from National Garden Clubs, Inc. made "In Honor of: \_\_\_\_\_" or "In Memory of: \_\_\_\_\_" a special someone who has made a difference in the world, just by being in it. (Certificates will be issued according to information listed on form see below on how to obtain form).

The plantations are a part of the regular National Forest reforestation program planted on burned-over and brush-covered areas which are potentially productive timberlands. Planting sites are selected by the Supervisor of each National Forest. These plantations provide soil protection, watershed protection, soil stabilization, future harvestable timber, as well as beauty and shade for recreation.

Contributions may be made from year to year under the original agreement, but must be a minimum of \$68.00 (or multiples of) made payable to "NGC- Penny Pines" and mailed to:

**National Garden Clubs, Inc.  
National Headquarters  
4401 Magnolia Ave.  
St. Louis, MO 63110-3492**

**A completed form must be included which can be download from the NGC Website or contact your NGC Chairman**

Penny Pines Awards will be presented each year at the NGC Convention to States which have donated the greatest number of Plantations and whose clubs demonstrated the most ingenuity in promoting education in conservation by creating public awareness of the need to protect and manage our National Forest resources. Let's all publicize our objectives and establish even more Penny Pines Plantations for the reforestation of our National Forests!

For details on the Penny Pines Program visit our National Garden Clubs, Inc. website at:
